Clear Path for Convenience.

Installing a snow melting system reduces the chance of injury due to icy walkways, saves time and money spent on shoveling and plowing, and eliminates the need for melting chemicals.

The ProMelt® Smart Panel is designed to control any size snow melting system when connected to compatible ProMelt products.

✓ **Reliable and sustainable snow melting solution**

✓ **Compatible with ProMelt mats, cables, and sensors**

✓ **Prewired with ProMelt Smart controller with Wi-Fi**

✓ **100 AMP or 200 AMP capacity to operate 120, 208, 240, or 277 VAC snow melting systems**

Works with the
Watts® Home Mobile App
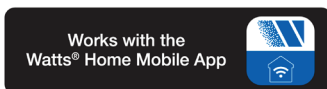

All-In-One Control

Combines the functionality of your panel and controller all into one system for maximum convenience

Easy Installation

Less hardware means less headache

Remote Connectivity

Wi-Fi enabled for easy adjustment and improved safety anytime, anywhere
